

A UNIQUE OPPORTUNITY FOR STUDENTS

STUDENT CONFERENCE ON CONSERVATION SCIENCE (SCCS-NY)
American Museum of Natural History
New York City
3-5 November 2010

If you are currently pursuing or considering a career in conservation science, the American Museum of Natural History invites you to take part in the 2010 Student Conference on Conservation Science-New York (SCCS-NY), a conference exclusively for graduate students and recent post-doctoral fellows. Be among the next generation of conservation professionals meeting in New York to exchange ideas with established leaders in conservation science, policy, and management.

The three-day conference will feature:

- Student presentations
- Poster sessions
- Personalized feedback from established conservation practitioners
- Multi-disciplinary workshops led by experts in their field
- Working lunches hosted by leading conservation organizations
- Career fair with NGOs, governmental agencies, and universities
- Professional networking opportunities
- Special evening programming
- Prizes for best work

Who Should Apply

Graduate students and post-doctoral fellows in any conservation-related course of study within the natural sciences, social sciences, and humanities are encouraged to apply. Applicants should have completed, or be conducting a research project and will be selected based on the quality of their work as well as its relevance to conservation.

More Details

For more information and to apply for a place at the conference, contact the Museum's Center for Biodiversity and Conservation visit our website, <http://cbc.amnh.org> or send an email to biodiversity@amnh.org.

SCCS-NY is being hosted by the American Museum of Natural History's
Center for Biodiversity and Conservation.
